TENTATIVE O.K. PLACED ON DRY PLANK OF G.O.P.

Ohio Republican Heads In-
dorse National Party Stand
After Long Debate.

GENERALLY ACCEPTABLE

Adoption by Buckeye Con-
vention Likely, but Without
Further Contest.

By The Associated Press
COLUMBUS, O., July 14—Born
after hours of debate in confer-
ences of national administration
and Ohio Republican leaders, a
prohibition plank indorsing the
Republican national convention
declaration was ready today for
submission to the resolutions com-
mittee of the two-day Ohio Re-
publican platform convention.

Acceptable to administration ad-
visers and a majority of the Ohio
candidates, the plank probably will
be written into the platform Fri-
day, but not without a contest.

Delegates aligned on the wet side
have asserted they will make a
demand for a declaration for repeal
of the Eighteenth amendment, its
enforcement legislation, the Ohio
constitutional amendment and the
Crabbe act, the Ohio enforcement
measure.

On the other side, dry delegates
have expressed their desire for a
plank indorsing the Eighteenth
amendment and demanding its en-
forcement.

Crabbe Act Ignored

The tentative draft turned over
to James E. Kinnison of Canton,
chairman of the Stark county Re-
publican organization and the
choice of the Ohio leaders for
chairman of the resolutions com-
mittee, was understood to make no
mention of the Ohio constitutional
amendment or the Crabbe act.

Although David S. Ingalls of
Cleveland, gubernatorial nominee,
and Attorney General Gilbert Bell
man of Cincinnati, senatorial nom-
inee won their nominations on
platforms calling for repeal of con-
stitutional prohibition, their friends
have indicated that they are willing
to accept the national convention

Thomas Bata, "shoe king" of
Czechoslovakia and one of
Europe's foremost industrial-
ists, who was killed when his
private plane crashed into a
chimney stack of his own fac-
tory at Zlin. Bata, 56 years
old, came to the United States as
a young man and worked as a
laborer while learning the shoe
industry that later brought
him fortune. He employed 30,-
000 men and produced 180,000
pairs of shoes a day.

Coney Island F Totals Over 3

Merrymaking Uninterrupted as
Gotham Resort Burn; Damage
Include Personal Losses of Pa

By The Associated Press
NEW YORK, July 14—The heart
of Coney Island is a three million
dollar ash pile today, but the bands
play on.

Fire that started in rubbish un-
der the board walk swept three
square blocks of the resort late
yesterday.

While a carousel sent its mono-
tonous music piping down through
rolling waves of smoke, the fire
bellowed by a fresh breeze off the
ocean, destroyed.

Fifty bungalows and houses; six
bath houses and bathing pavilions,
200 parked automobiles, the Per-
gola; the "Streets of Bagdad" (an
amusement place); a small apart-
ment building; five blocks of the
board walk and most of the build-
ings fronting on that section of the
two-mile promenade.

This was the principal destruc-
tion. Two score houses and several
business places were damaged by
fire.

At St. Joseph's orphan home on
the board walk, 300 children were
lined up in fire drill as the flames
licked out in its direction. Fire-
men brought the blaze under con-
trol before it could reach the or-
phanage.

Thousands Homeless

Many thousands were made
homeless. At least 5,000 bathers
among the 25,000 in the surf at the
time, lost their clothes and per-
sonal possessions as the fire de-
stroyed bath houses in which their
clothes were lockered.

Two hundred persons were in-
jured seriously enough to need
first aid attention. Only two,

MARKET PLANS NOVEL PROGRAM SATURDAY

Model Radio Studio Will Be Set Up for Veteran and Novice Artists.

Patrons of the Miller Market Saturday afternoon and evening will be given an opportunity to see a model radio broadcasting studio in operation.

Merchants in the market have arranged to bring a number of entertainers from station WJW in

Manfield here for the event. In addition to these, local musicians and entertainers will be given an opportunity to make their appearance before the "mike."

A model studio will be set up in the market and the program will be amplified and broadcast on the street.

Among the WJW entertainers who will be here are Ted Appleman and Victor Day, a harmony team known as Ted and Victor. Phil Rennie, who entertains with "Bill Billy" numbers, and Earl and Duddy, a piano team. Any Marion persons who can play a musical instrument will be given a chance to appear before the microphone, the sponsors say.

READY FOR MOVIE DEBUT

Returning to the United States to make their debut in motion pictures, Sidney E. and Charles S. Chaplin, sons of the famous comedian, are shown as they arrived at New York, where they received their first introduction to the mysteries of the movie camera. The boys had been in Europe with their maternal grandmother for some time and returned with their mother, Lita Gray Chaplin, divorced wife of the comedian.

EAGLES' LODGE TO INITIATE CLASS

Final arrangements for the class initiation to be held July 27 when it is expected 50 will be added to the membership, were made at the regular meeting of Buckeye Aerie, Fraternal Order of Eagles, last night. Plans to attend the national Eagle convention to be held in Detroit the week of Aug. 7 were also discussed. Alphonz Armbruster, retiring president, will represent the local lodge at the convention.

John Abel, past grand trustee, and secretary of the Marion lodge will leave for Detroit Aug. 3 to attend conferences of the grand committee of the national order to be held previous to the convention.

HEARING SET FOR TODAY IN COURT

Charged with secreting mortgaged property Mrs. Charibel Morrison was arrested this morning on complaint of the Marion Electric & Furniture Co. She was later released on her own recognizance for a hearing this afternoon.

The affidavit filed by R. I. Ulmer, manager of the company, charged that a radio upon which Mrs. Morrison had given a mortgage to secure a claim of \$55.30 in November, 1930, had on June 18 been secreted by Mrs. Morrison while there was still \$44.80 due on the claim.

Taken to Jail.

On June 24, Edward Mohler of Scranton avenue, was given his choice by Municipal Judge W. R. Martin of paying a fine of \$20 and costs on a disorderly conduct charge, or leaving the city. He decided upon the latter. He failed to keep his part of the agreement, however, and yesterday he was taken to the county jail to stay out the fine.

Police Arrest Man.

Raymond Grant, 35, of 762 Davids street, was arrested late yesterday afternoon charged with failing to contribute toward the support of his mother, Mrs. Luella Grant. The affidavit was filed by J. F. Ullom of the humane society who charged that Grant had not provided for his mother since June 1. It was expected he will be arraigned late this afternoon.

Two Cars Collide.

Automobiles driven by Mrs. R. Miller of 657 Fountain street and G. O. Bensley of 636 East Church street, were damaged in a collision at Center and Main streets yesterday afternoon. The police said the accident occurred when Bensley in making a left hand turn from Center to Main ran into the side of the Miller machine. Neither of the drivers was injured.

Driver Faces Charge.

Louis Garverich giving his home as Gallon was released by the police last night after he had deposited \$5 for his appearance in court to answer to a charge of crashing a red light. Garverich, the police said, drove through the red traffic light at West Center and Leader streets.

Columbus Girl Killed.

COLUMBUS, O., July 14—Miss Florence Cooke, 16, was killed when she was thrown from the running board of an automobile as it struck a parked car last night. The girl, attired in her bathing suit, was returning from a swimming party.

Chief Cites Most Common Traffic Law Violation

Motorists as well as the growing carelessness of some drivers, the chief of the city traffic department was prompted to make a list of the most common violations for consideration of the city council.

The chief, under which some of the most common violations are listed, are:

1. Failure to stop at a red light.

2. Failure to stop at a stop sign.

3. Failure to stop at a stop sign.

4. Failure to stop at a stop sign.

5. Failure to stop at a stop sign.

6. Failure to stop at a stop sign.

7. Failure to stop at a stop sign.

8. Failure to stop at a stop sign.

9. Failure to stop at a stop sign.

10. Failure to stop at a stop sign.

Warns Fire Truck Racers

For the benefit of motorists who persist in racing on ahead of fire apparatus, ambulances or police cars, the chief quotes the following section of the ordinance: "The driver of any vehicle upon the approach of any fire apparatus, ambulance or police patrol answering a fire or police emergency call, shall immediately pull to the right side of the street and stop until all such vehicles have passed."

The chief also quotes section nine which prohibits the washing or repairing of vehicles on any street or alley and section 29 which prohibits the driving of any motor vehicle with the muffler or cut-out open. Both sections, he says, are frequently violated.

Section 47 quoted by the chief reads, "Vehicles traveling on main thoroughfares have the right of way over those traveling on intersecting streets or alleys; and the driver of a vehicle approaching such thoroughfare shall bring his vehicle to a complete stop before turning or entering onto such thoroughfare."

Cites Speed Limits

Section 49 quoted by the chief provides that no jay-walking shall be permitted on any street, also that no vehicle shall enter a street intersection when the light shows red, vehicles entering the intersection before the light shows red, will continue through the intersection.

Trucks of greater length than 13 feet, under section 56 of the ordinance, are required to park parallel with the curb. Section 12603 of the state motor vehicle law fixes the speed at which motorists are permitted to drive as 20 miles per hour in the business section, 35 miles an hour other portions of the city and 45 miles an hour outside the limits of a city or incorporated village.

There remain eight children, Richmond and Miss Nina Graham of Columbus, Mrs. Estella Main of Ostrander, Mrs. Anne Reid of Yuma, Ariz., Lawrence of Delaware, and Rolle, Virgil and Leona of Marysville. The funeral will be held Friday at 2 p. m. at the home.

UNION OF SPORT AND STAGE

None other than the dapper Mayor of New York, James J. Walker himself, officiated at the wedding of Damon Runyon, famous sports writer, and his bride, the former Patrice Amati Del-Grande. The new Mrs. Runyon was known on the stage as Patrice Gridler. She is a native of Spain. Many celebrities of the sport world and stage attended the ceremony.

Toledo Man Devises New Type of Folding and Movable Dwelling

By The Associated Press

TOLEDO, O., July 14—Robert L. McCaig's houses can be folded up and carried away—like, say, a folding bed, or almost as simply. The insulation is counted on by McCaig to maintain constant temperature summer and winter.

The inventor, who has been at work seven years on the development of an idea, believes glass will eventually replace the outside plates of steel—coming from the factory to your vacant lot already painted in such designs as may have been requested from a standard catalogue.

"Thus," it is explained, "an old world cottage, covered with ivy, might on close inspection prove to be built of steel, insulation, materials and glass. And not a bit of natural ivy in sight."

And the decorative little cottage might be, it should be added, the same one you admired only a short time before in quite another city.

The parts are of steel, each double, with insulation between. Joints fit together by an interlocking system that obviates nails and screws. The insulation is counted on by McCaig to maintain constant temperature summer and winter.

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sick and the world looks pink, don't swallow a lot of pills, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a more movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels, gas builds up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

Take those good, old CARTER'S LITTLE LIVER PILLS to get those two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resist a substitute. See at all stores. © 1931 C. M. Co.

It's the Cigarette that's Milder and Tastes Better!

That's why more and more Smokers are changing to Chesterfield every day

WHEN you are smoking a lot of cigarettes every day, you naturally want a mild cigarette, and smokers try Chesterfields and find out that they are milder and taste better.

Then smokers tell other smokers—"one smoker telling another"—that they find that although they smoke a great many Chesterfields during the day, they never tire of them; and that they have found out that Chesterfield is a milder cigarette, that it is a cigarette that tastes

better, that it is a cigarette with a most pleasing aroma.

Some time ago, in a Chesterfield advertisement, there was a statement, "A \$90,000,000 Reason," and this means that the larger part of \$90,000,000 is invested in the right kind of ripe, mild Domestic and Turkish tobaccos to make sure that Chesterfields are milder and taste better.

May we ask you to try them?

Drives Uric Acid Poison from Body—Then Out Goes Rheumatism

Uric Acid Poisons Start To Leave In 24 Hours—Oh Joy!

The crippling power of relentless uric acid—once it settles in joints and muscles is sad to contemplate. You can't be permanently free from rheumatic pains, agony, twinges and swellings until every particle of this uric acid that poisons the whole system has been expelled.

You simply fool yourself when you take pain deadening drugs—they may bring relief from pain but

THE CAUSE OF RHEUMATISM

—the cause of your agony—of your stiffness—of your violent inflammation—uric acid poison—stays right in your body—getting more deeply entrenched in your joints and sooner or later it will manifest itself again—and your next rheumatic attack may be worse than ever before.

Now there's a prescription called Allenru that is safe yet so powerful that when you take it uric acid poisons start to pour out of your body in 24 hours—better still—

In 48 hours pain, agony and inflammation are gone.

Now remember, please—that one bottle of Allenru is guaranteed to do this—and here's something else that will please you—a bottle of Allenru—uric acid's worst enemy—costs but 85 cents at Henney & Cooper's or any drugstore anywhere—little enough to pay to be free and keep free from rheumatic bondage—Adv.

"LOST" STAR BACK

Believed at one time to have been lost at sea when he left France in a small sloop to hunt lions in Africa, Borrah Minnevitich, well-known vaudeville star, is shown on his return to New York with a new crop of facial shagbush.

Minnevitich told how he had hired a crew for his boat at \$10 per day. The sailors, determined to keep their high-salaried job as long as possible, kept the actor at sea until he had run up a tidy bill and caused his friends a lot of anxiety.

LOWEST PRICES IN HISTORY now buy world's best tire

RIGHT now is the greatest time to buy tires in the history of the rubber business.

Proof? Take a look at the prices below.

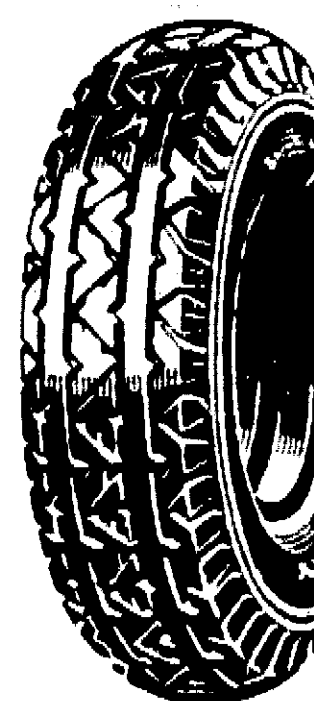

These prices buy Goodyear Tires—the world's first-choice tires—the best tires that ever came from the world's largest rubber factories.

If you've been watching tire prices—you don't need to be told that you're looking at tremendous bargains.

If you haven't priced tires lately, take our word for it, no real tires have ever been offered at lower prices than you are reading now.

You bet this is a great opportunity. You can get the biggest value, the largest measure of safety, comfort, sturdy life and long mileage ever put in a tire if you ask this hardpan question:

"Why pay good money for any second-choice tire when FIRST-CHOICE costs no more?"

War in Ohio.

"Fighting it out" is a doubtful method when neither side is willing to give in. What do Ohio miners and operators see ahead of them but an interminable struggle ending in mutual exhaustion?

The state government has done its part to the best of its ability, but without reaching a solution of the problem. Public opinion does not approve of the unlimited use of troops to maintain order, but it is frankly distressed by recurrent reports of violence in the mine region.

Governor White has used the influence of his office to bring operators and miners together for the purpose of arriving at a compromise, also without success. It is seemingly the intention of the two sides to continue the struggle in the hope of winning a victory.

A similar amount of fighting in China, for instance, would be called a war. It is a war in Ohio, however, much residents of the state dislike to admit it. Shots are being exchanged, property is being destroyed, the normal order of things is being disturbed violently. Worst of all, men have been killed, and more will be, unless there is a change of attitude.

No one can promise that there will be a change. The state has tried to accomplish it and has failed. Public opinion has been denied. Both sides, driven to desperation by manifest difficulties in the soft coal industry, are reconciled to a deadlock which probably will not be broken by anything short of a business revival which will make the mining of coal in this state and others a reasonably profitable business again.

Acid Tests.

The best defense is a good offense.

Ogden L. Mills, secretary of the treasury, committed the Republican party to that campaign policy Monday night in the opening shot from the defensive position. It has been no secret that Democrats intended to attack Mr. Hoover. It was not generally realized, however, that Republicans, in addition to defending him, intended to make a counter-attack on Mr. Roosevelt. His running mate, Mr. Garner, one of the most vigorous attackers of the President, also will have to keep up his shield for Republican darts.

Secretary Mills' speech contained such choice passages of attack as: "It is apparent that so far as relief is concerned Governor Roosevelt has no program at all." . . . his acceptance speech does not stand up under the acid test of careful analysis." . . . "that aside from the fact that he would plant trees where his running mate would plant post offices, all Governor Roosevelt has to say is that he favors the use of certain kinds of public works and the issuance of bonds." As a patting salute to thunder through Boston's old Faneuil hall, Mr. Mills shouted, "I find nothing in his program which does not constitute a mere endorsement, in principle, of what has and is now being done."

This kind of political talk from the man who has become, since his appointment to succeed Andrew W. Mellon as secretary of the treasury, the administration's best speaker is an unmistakable sign of the type of campaign that the people can expect. It will be vigorous; let there be no mistake about that. In the same measure that Democrats, united this year more closely than any one ever thought they would be, are confident of victory, Republicans will be unwilling to show signs of weakness. Therefore, they will try to break up the opposition's attack by one of their own on men who are acknowledged as being more than usually vulnerable. It is going to be a campaign of acid tests, with plenty of acid in use. Spectators, particularly glib ones, will do well to stay out of range.

Final Test on Beer.

Senator Hiram Bingham, beer champion, rejoiced frankly when the Democratic party declared for repeal of the 18th amendment and immediate modification of the Volstead act. Himself a Republican, he welcomed the prospect of giving the country beer with the assistance of the political opposition. So high did his enthusiasm run that he predicted 55 votes could be mustered in the senate either for repeal or modification. Modification, it should be remembered can be effected with a majority.

Senator Bingham built his hopes too high. What he fancied was the wet Democratic party dried out suddenly last Monday in the senate. In this congressional session's final test on beer, only 25 votes asserted themselves. Eleven were Democrats; 14 were Republicans. On the dry side were 24 Democrats and 26 Republicans. The Democratic platform, a noble structure in itself, is headed already for the fate that awaits platforms—disrepair and neglect. Democrats are no wetter than Republicans; the attempt to make prohibition a partisan issue has failed in its first test.

It is, however, a congressional issue of prime importance—an issue that will divide congress more clearly than political parties have been able to do in recent years. There will be many rough-and-tumble fights in the coming elections that will be

senatorships are to be decided, and 435 seats in the house of representatives. Party lines will be ignored in many localities in favor of prohibition lines. From the standpoint of probable congressional efficiency the prospect of confusion is more frightening than it would have been had prohibition become an outright party issue.

Between the end of this session and the beginning of the short session next winter an interesting possibility may be disclosed. It is that a test vote on modification of the Volstead act may reveal fewer wets than a vote on reestablishment. An affirmative vote on the latter question can be made by a nominally dry congressman, but an affirmative vote on the Volstead act is palpably wet. The question of the amendment, in other words, may be easier to decide than that of the enabling act. The Democratic promise of immediate modification is made to sound silly by the first attempt to make it good.

Ohio was pleased to have Amelia Earhart Putnam for an unexpected visitor yesterday, but regrets, of course, that her car was one of necessity and spoiled what promised to be a history-making non-stop transcontinental flight.

A Bargain in Entertainment.

According to information coming from officers of the Marion Chautauque, preliminary ticket sales for the 1932 program give promise of substantial support. This is evidence that residents of Marion and vicinity have a liking for high standard entertainment and a desire to maintain an enterprise that assures an annual offering of that sort.

There is probably no other program on Marion's list for the year that gives as much as the Chautauque for the same amount of money or even a considerably larger amount. Adults receive virtually a full week of high class amusement and educational features for \$2 and children are charged only half that figure.

In addition to the numerous entertainment attractions, Chautauque week is equivalent to a vacation period for the recreation that it offers. It provides an opportunity for social intermingling and for tracking the worrisome cares and routine of life by permitting mind and spirit to find their way into channels of uplift and refreshment.

Wholesome and enjoyable entertainment is one of the most effective depression remedies. The circus that was here this week was beneficial in that respect. Motion picture theaters fill an important place in the important work of keeping the public mind above the level of gloom.

So it is that the Chautauque, although invariably helpful and thoroughly enjoyable in the past, is likely to accomplish even more good for the community this year. Of course the benefits will be in proportion to the number of persons who attend. In order that the good cheer spread by the entertainers may reach the greatest possible number of persons, it is to be hoped that the Chautauque pavilion will be crowded to capacity at each and every session.

Six present and former public officials in a southern Ohio county arrested on charges of conspiracy to violate the prohibition laws have pleaded not guilty and may be acquitted, but even with the case at this early stage it is sufficient to warn voters that future use of the ballot is something that ought to call for a reasonable amount of care and good judgment.

Betwixt and Between.

The unfortunate aspect of a party bolter's action in the sequel. So often he gives the impression of jumping from the frying pan into the fire with heroic gestures. As political dramatists, the flight turns out to be low comedy.

Senator Borah, according to schedule, bolted the Republican party a few weeks ago. There was little surprise in that, but the senator got attention because nearly every one wondered what he would do with the power of his voice and his name.

Would he turn to the Roosevelt camp to offer his services? To that question the senator, himself, has given a definite "No." It seems that he carries no more for Roosevelt than he does for Hoover. He won't give the latter even the compliment of support in one campaign, furthermore.

In the meantime, Mr. Borah has made it plain that he will transfer his affiliations to none of the mushroom organizations that have expressed a willingness to lie down and die for his sake. He will stand alone between Republicans and Democrats—a lone wolf.

There is this much at least to his credit. He doesn't change his party with the same ease that he changes his coat. Admiration can not be withheld for any man who stands up for his convictions alone. Still, one wonders when studying the actions of certain proud and temperamental legislators from the west if they ever read the story of the peacock pinning his tail feathers to his back. It didn't meet his requirements, but when a heavier man came along and picked it up he used it to such good advantage that he became the hero of the day. Mr. Borah in a cross armed post cuts quite a figure, but practically he is about as useful as a statue. If it truly be his intention to save the world he does neither himself nor the world any service by acquiring the tools that he ready for his hand.

Latest style reports from Paris disclose that women are again wearing hat pins, which probably just about doubles the total weight of their apparel.

Comment of the Press

RESULTS OF PUBLIC BORROWING.

A survey made by Russell Moore, taxation specialist of the Ohio State University, reveals that during the last 20 years only a few local units of government in the state failed to adopt the installment plan of buying. He says that it enables townships, school districts and municipalities to relieve the silent tax burden and to pay for the improvements in a more equitable way. As a result one county must pay for debt charges 53 per cent of all its revenue, and the average for all counties is 21 per cent.

After 1930 public borrowing increased more rapidly, due partly to using prices. In the ten years ending with 1930 school districts borrowed 80 per cent of the cost of buildings and lands, and in the next ten years they borrowed 114 per cent. Debt reduction since 1920 was limited to rural counties where low prices for products had influence.

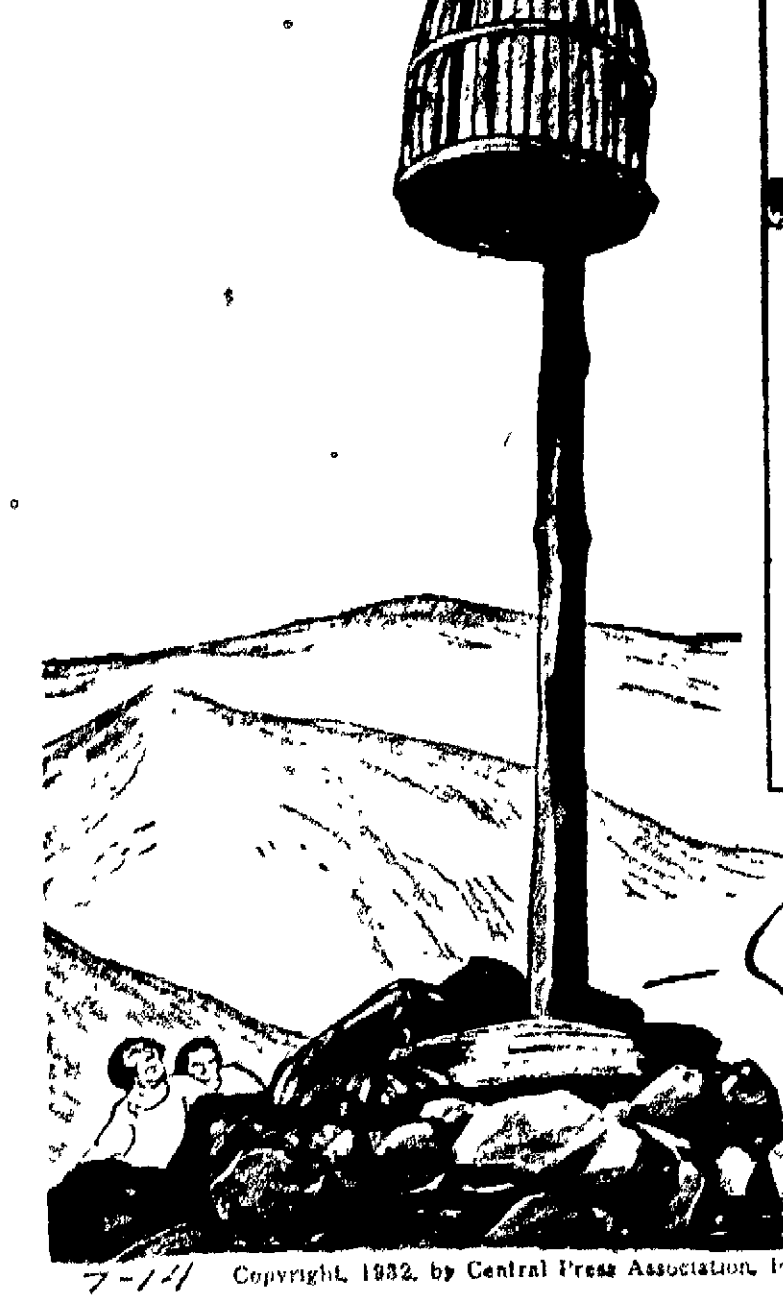

The majority of the public debt in the state was incurred with prices were 50 per cent above present levels. Payment now of debts incurred at high prices gives an experience that teaches the importance of the pay-a-go plan which some government units adopted when they faced a shortage of revenue and could no longer operate on the plan followed for years. A local public debt of \$148 per capita at the end of the last decade, nearly four

Sure Preventative of Typhoid Fever.

A Russian ago typhoid fever was one of the most common causes of death. Today it is a rare disease for the typhoid germ is known and prevention of typhoid is now possible.

Typhoid fever is caused by a germ called the "typhoid bacillus." These germs live and multiply in the walls of the intestine and in the blood of an infected person, and produce a poison which causes typhoid fever.

About fifty years ago it was discovered that typhoid fever germs were thrown off in the elimination from an afflicted person. In these waste materials often being deposited where they contaminated drinking water, while the unwashed hands of a sufferer from

the disease, or a "typhoid carrier," often infected food.

A carrier is an individual who has been in contact with typhoid fever and harbors the germs without being infected himself. Usually such a person is not aware of the fact that he carries the germs of typhoid fever and is a menace to society.

Scientists soon realized that typhoid fever could be prevented by purifying water and safeguarding all food. All cities and towns now demand a clean water supply and enforce pure food laws. Public health bureaus follow up and keep track of all typhoid carriers. In this way typhoid fever has been controlled.

But the greatest achievement

Glimpses of the Past

TEN YEARS AGO.

It was Friday, July 14, 1922.

It was announced at Washington that a presidential proclamation declaring the existence of a national emergency through the cutting off of the nation's coal supply would probably be President Harding's answer to bituminous miners and operators if they refused to accept his proposal for the settlement of the coal strike.

Shots were fired at President Millerand and Premier Poincaré in France in an attempted assassination and the secretary of the Paris Society of Anarchists was arrested and charged with the crime.

It was announced that speed burns at the fairground were filling rapidly with horses arriving for the Little Grand Circuit races to be held the following week.

S. B. Stowe, county farm agent reported that Marion county's wheat yield for the year would be about normal. Reports indicated an average of about 18 bushels to the acre.

Announcement of the marriage of Mrs. Flo Brown Froelich of Marion and Leroy Adlard of Boston, set for Aug. 30, was made at a bridge tea given by Mrs. H. A. Stevens at her home on South Prospect street.

Mrs. George Fies was hostess to the Dill Penates club at her home on Blaine avenue.

Newly elected officers of Way side Rose Rebekah lodge, headed by Mrs. Ollie Shupp as noble grand, were installed.

Ray Gatewood gave a talk on cooperative livestock shipping at a meeting of the Montgomery Township Farm Bureau held in Montgomery Grange hall.

Miss Shirley A. Ackley and Deane D. Noblitt, both of Marion, were united in marriage by Rev. George M. Landis, Trinity Baptist pastor, at his home on Curtis avenue.

TWENTY YEARS AGO.

It was Sunday, July 14, 1912.

Thirteen persons were killed when the Omaha mail train crashed into the rear of the Denver limited on the Chicago, Burlington & Quincy railroad at West-ern Springs, near Chicago.

Coudrebut destroyed several cities in Mexico and took a toll of hundreds of lives.

E. J. Staiger, president of the Marion Amusement Co. held a conference in Mansfield with Secretary Joe Carr of the Ohio State League and brought to a definite conclusion the Marion baseball club's connection with that organization. The Marion franchise had been transferred to London.

The newly-organized Ohio Trolley league, consisting of the Fort Leavenworth team of this city and teams representing Prospect, Delaware and Worthington, opened its schedule. The Marion team played Delaware on the local grounds and won, 3 to 2. Young and Clapsaddle wote the battery for Marion.

The first annual reunion of the descendants of Jacob Schults was held at Lincoln park. Officers elected included Miss Alice Snick-emberger as president.

Several thousand fans witnessed two ball games played by City league teams at Lincoln park. The Spik Mull team defeated the Giants, 16 to 1, and the Whites, 4 to 3.

Miss Stacey Bell of Marion and Frank T. Mahoney of Springfield were united in marriage at St. Mary church paragon by Rev. Father Joseph Denning.

Harry Gillette of Lorain and Lowell Ush, Curtis Williams, Paul Johnson, Anson Pickler, Charles Mason and Harry Berger of Marion were hosts at a dinner party given at the Imperial restaurant.

With the Inventors

A folding device that resembles a roller skate has been invented in Germany to be attached to a pedal (to serve as a rest to support a bicycle when it is standing).

A New York engineer has developed an instrument that measures the movements of skyscrapers when struck by high winds, some in the city swaying as much as two feet.

Apparatus invented by a California Institute of Technology scientist to measure the heat of the stars is operated by wires so small that it would take 1,000 to weigh as much as a drop of water.

To enable salesmen to describe goods to prospective customers a picture projector about the size of a pocket camera that can be operated from a lighting circuit has been developed.

For training pilots a method has been developed for attaching an airplane to an automobile, a su-

made in the war against typhoid

fever was due to the discovery of its prevention by vaccination, which consists of injecting dead typhoid germs underneath the skin. The vaccinated person develops immunity or protection against typhoid fever and the vaccination itself is a simple procedure.

Within the last few years a vaccine has been perfected against typhoid fever, called a "triple vaccine," because it protects against paratyphoid fever, diseases similar to typhoid fever. This vaccine, injected at weekly intervals for three weeks, gives complete protection from typhoid fever.

It is now given to all soldiers and to many government employees. One never hears of a case of typhoid fever in the United States army or navy and this marvelous record is due to the compulsory rule of vaccination against typhoid fever.

I would advise all civilians who travel or who live in a community where the water and milk supply are unprotected to resort to vaccination. If cases of typhoid are reported in your district, do not delay in obtaining this simple protection.

EARLY SUGGESTIONS.

On June 16, 1783, Gen. Rufus Putnam, prominent in promoting a movement for a state between the Ohio river and Lake Erie, wrote to General Washington seeking his favor for the project and asking that he lay it before congress.

Putnam emphasized the need of kindness to the Indians, but added that inasmuch as they had learned the use of firearms a system of military protection would be needed, too.

He already had pointed out that transportation of supplies could be accomplished by use of rivers running into the Ohio, especially the Scioto. He suggested a fort placed on the banks of that river at every 20 miles, with a specially stationed one at the portage over to the Sandusky. It is to be noted that the conquest of the country was accomplished by just such a plan, except that the Miami instead of the Scioto was used for the fort line.

New York, July 14—Chinatown warrens are not featuring the usual sawed-off shot guns, but local for a while. The latest men to longer strap deadly missiles in their flopping sleeves. Tongues have gotten bated in a common war—disaster in the native land.

The race is world-wide and funds once collected for killings amongst themselves are diverted to the starving and stricken at home. Old enemy chiefs are fraternizing in the fan-tan parlors. Two of the tong chiefs, long at war, dined openly in Port Arthur on a recent night.

No matter how strict the vigilance, Chinatown's streets used to run red at least once a year. Uprisings always came mysteriously out of a sudden calm. Streets were the twinkling of an eye would be utterly desolate and the eerie stillness would burst into noisy bedlam.

When police arrived several bodies would be strewn in areas. Questioning would result in the usual bland indifference. Like O'Connell's gang the tongs never remained quiet. In the innumerable murder outbreaks, the police never found a single clue.

Today, the Chinese hatred is directed solely toward Japanese. The new-American newspapers print scathing denunciations daily. Police's plans are made to those who are able to return to China and help her in what is regarded as the last stand.

DARTS AND FLOWERS

"I get a kick out of your column," writes L. of Baltimore, "but you take too much for granted. I am only a mere male, but I can analyze any woman, and you know just what is in her emotional make up just what attracted her to a certain man and why she can't get him to reciprocate."

Wish I had you here beside my desk with my Thesaurus, Mr. D.—You could save me a lot of headaches. That's something every girl wants to know!

"I hope your article of last night has sunk in," writes S. M. of New York. "I bought a dozen copies and sent them out to that many males. Women have a certain dignity—and hauling them around in the back seat of a 13-and-5 not only decreases their interest and upsets their vanity, but offends their intelligence. You have a rare understanding of human nature."

BEAUTY NOT TICKET TO MOVIE FAME

Personality and Talent Most Important Assets

By International News Service

HOLLYWOOD—How many of us recall the childhood story of the ugly duckling which blossomed out into a beautiful swan? That was supposed to be a fairy tale, but parallels are occurring daily here in the capital of moviemaking to an extent that makes the once-glamorous tale appear exceedingly commonplace.

Old timers in Hollywood have seen stars and potential stars come and go, and more than once they have been amazed when those for whom they predicted a rapid climb to fame, via the ladder of pulchritude, have gone back whence they came, sadder but wiser; and others who they prophesied would not get to first base have made a flashing ascent to the top of the tree.

Old adage proves true. The fact is, as the old philosophers told us, that beauty is only skin deep, and the movie camera looks beneath that skin and searches out flaws and sometimes brilliant invisible to the naked eye. For this reason many a face that would have launched a thousand ships failed to launch its owner on a career in Hollywood, while other faces that would not attract more than a cursory glance

on the street contain so much of that indefinable something known as personality, that even the pictured image radiates charm and attracts attention.

If beauty were the only asset necessary to screen stardom, then at least 75 per cent of our American girls would be twinkling ornaments in the celestial sky over Hollywood. But many of these beautiful faces, when filmed and thrown upon the screen, are as flat and unattractive as a plate of chop suey.

Plain Oases Shine. On the other hand, many comparatively plain junes have made good before the camera, for, strange as it seems, the movie lens takes more kindly to the face that is not perfectly sculptured. Besides, if a girl has the histrionic talent and personality, there are certain little tricks of lighting and make-up that can transform a passably good-looking actress into a ravishing beauty. But there is no trick known to science that can make artistry appear where there is none.

To mention a few reigning stars, who though not ravishing Cleopatras, are easy to look at and have climbed to the peak of their profession on their artistic ability

There is Greta Garbo, who came from Sweden a lanky, gawky girl. She would never have got a second glance at a beauty pageant, but when the camera strutted its stuff the pictured Greta was shown as a divine creature of fire and ice, a bundle of living, breathing emotion.

Looks Not Essential

Although the factious have attributed the success of Marlene Dietrich to her shapely legs, those who know real talent are of the opinion that the German star would still be a star if she had a couple of wooden legs. Then there is our own Joan Crawford, who is regarded by many as the equal of the great Garbo. Joan does not profess to be a traffic-stopping beauty, but she has the stuff that makes a great artist. Sculptors might be able to pick out many flaws in her physical make-up, but her pictured image on the screen radiates more personality than a thronged boardwalk of bathing belles.

Ruth's Beauty Hidden

Ruth Chatterton, too, though not the possessor of what an artist would call beauty, has a beauty of soul revealed only by the camera. If Miss Chatterton were as homely as one of Macbeth's witches, she would still hold the power to sway an audience as she does now. The same is true of Helen Hayes, who made one of the biggest hits of her career in the character part of a disreputable old woman, with nothing to associate her with beauty but the peerless talent that shone through her make-up.

One of the most recent importations of Hollywood, Anna Sten, of Russia, would not be noticed in a crowd of homeward-bound stenographers—that is in private life. But when she throws herself into a part before the camera she immediately becomes another being, radiating the power to sway an audience—proving that though beauty is only skin deep, personality goes all the way through.

GET RID OF
INDIGESTION IN A
FEW MINUTES, OR
Get Your Money Back

"Bilester" and milk of magnesia only make
your indigestion worse in most cases, for they
weaken the digestive and in your stomach, so
it cannot digest your food properly.
Pepito-Bismol does not upset your stomach.
It relieves indigestion easily in a few minutes
by stopping the souging of food in your stom-
ach and the decay of food in your bowels. The
medicine in Pepito-Bismol which stops souging
and decay, are four of the finest medicines
known to physicians. Read them on the bottle.
Also, Pepito-Bismol is not a patent medicine.
It is a prescription by The Norwich
Pharmaceutical Company, whose Ugentine and
other fine medicines have held the respect of
physicians, surgeons, hospitals, nurses and
druggists for nearly 50 years.

If Pepito-Bismol does not get rid of your
indigestion, distress after eating, heartburn
and sour, acid stomach, in a few minutes, get
your money back from your druggist. Delic-
ious Pepito-Bismol is harmless. Price 50c.
But don't be absent-minded and merely ask
your druggist for "something for indigestion."
Ask him for Pepito-Bismol by name. Look for
the name Pepito-Bismol on the bottle. Refuse
the unfair offer of "something just as good"
which may hinder, instead of help your diges-
tion. Ask for Pepito-Bismol by name and get
what you ask for.

GALAXY OF STARS TO COMPETE IN FINAL OLYMPIC TRIALS

GRIMES NO HELP TO BRUINS IN RACE FOR NATIONAL LOOP FLAG

Veteran Spittballer Again Blasted from Box; Cleveland Wins Again.

By The Associated Press
That heroic figure of the last world series, Burleigh Grimes, must have been a source of the keenest disappointment to Rogers Hornsby the last few months.

The Cubs apparently made the smartest kind of a move when they acquired Grimes in the famous deal that sent Hack Wilson on his way. But the once great spittballer has failed to produce, and it is only because Lonnie Warneke, the Arkansas youngster, has come through so spectacularly that the Cubs are where they are today.

Grimes thus far has been able to win only four and has lost eight. After an illness at the start of the race, he started well and it looked for a time that he was set for a big year, but something slipped about a month ago and he has been of practically no value since.

Grimes' inability to regain his stride cost the Cubs a 5 to 4 defeat by Brooklyn yesterday. The defeat kept the Cubs from climbing within a single game of the league leaders.

Boston took a pair from the Pirates, 5-1, and 10-5.

The St. Louis Cardinals won their fourth straight from the Giants, 6-2, and the Phillies scored a 2 to 2 triumph over Cincinnati.

The Cleveland Indians romped on the A's again, 7 to 5, in 10 innings and went into second place in the American league.

Boston's Red Sox took their second straight from Detroit, 8 to 7, and chalked up their first series of the season, three games to two.

Home runs by Babe Ruth and Frankie Crosetti, each with one aboard, gave the Yankees their final win with St. Louis, 5 to 3. It was No. 25 for the Babe. Washington hammered the White Sox for 16 hits and a 15 to 4 victory.

CHRISTIAN SENIORS DOWN ST. PAUL, 8-7

Epworth Thumps U. B., 2-0; Wesley Surprises by Beating Forest Lawn; Reformed Loses.

BY BOB KIRKPATRICK
Sports Editor, The Star

It begins to look more and more like the question of which team is going to win the championship of the No. 2 Sunday school league would be answered on the first day of August when the Christian Seniors and Epworth Seniors meet in next the last game of the season. Both teams racked up another victory yesterday when four postponed games were played off and they didn't appear to be any teams in the league capable of stopping them. The Forest Lawn

ing mastery over the Seniors then but some early errors paved the way for three Christian rallies and enabled the league leaders to come home ahead of the pack again.

Corwin Masters U. B.
Dutch Zuppan made the Epworth Seniors batters work plenty hard to squeeze out a 2-0 victory over the seventh place team. Zuppan gave up seven hits but until the last frame kept them widely scattered. An error gave the Methodists one of their two runs but the second was an earned score.

Bryant Corwin held the U. B. batters well in check, giving them only three hits, never more than one in an inning.

Added by a home run by Cluff.

Presbyterians were virtually hoisted out of the championship picture yesterday when Tony Lahey twirled the Methodists to a 3-1 victory over Eastside Presbites.

The Christian Seniors were forced to come from behind to beat the St. Paul Lutherans by an 8-7 score. Epworth Seniors had difficulty in turning in a 2-0 decision over the United Brethren and Christian No. 1 made it two in a season over First Reformed by grabbing a 7-0 victory.

Don Lindsay, star flinger for the St. Paul Lutherans, made life miserable for the Christian Seniors as he pitched steady ball all the way and went into the last of the seventh inning with a two-run advantage. Don didn't lose his pitch-

ing mastery over the Seniors then but some early errors paved the way for three Christian rallies and enabled the league leaders to come home ahead of the pack again.

Carol Carls, at bat for the Christians, smashed a liner to Staker at second for St. Paul. Staker flipped the ball to Gates at first to double Overfield who had started for second. Gates relayed the ball to Balderson, St. Paul shortstop covering second. Balderson tagged Bill Fetter to complete the triple, Fetter having started for third on the hit. But the Christians won anyway, 8-7.

MARION PACER IN FAST TOLEDO RACE

A Marion-owned horse is cutting a wide swath this summer in Grand circuit and Short ship racing meets throughout this section. The horse, Calvin May, a pacer, is owned by C. E. Deyson and has been seen in races at the fairgrounds in previous years.

Calvin May stepped a fast race yesterday in the 16 pace at the Toledo Grand Circuit meet but lost to Peter-Al-Law, finishing 2-2-1-3 in the extra heat race. Peter, the winner's time was 2:02 1/2.

Calvin May will be here again in the Short Ship races which are tentatively scheduled to start here on July 25.

St. Mary Wins, 9-7.

St. Mary's continued in the race for Intermediate league honors yesterday by taking a 9-7 decision from the Northern stars. Pleasant Trinity Lutheran won from First Presbyterian 14-0 and Epworth beat First Memorial 6-4.

Four games are slated Friday in the Intermediate league.

INJURY TO NURMI DRAWS ATTENTION

By The Associated Press
LOS ANGELES, July 14—In town less than 24 hours, Paavo Nurmi, the great distance runner from Finland, found himself today the center of pre-Olympic speculation.

There was much talk that the phantom Finn would be unable to compete in the 1932 Olympiad even though he might be permitted to do so by the International Amateur Athletic federation, for, like the ancient Greek Achilles, his feet has proven vulnerable to injury.

OLYMPIC RINGMAN

Here is one invader who is expected to give Uncle Sam's Olympic hopefuls some stiff competition. He is Joe Padilla, Jr., Filipino amateur lightweight champion, who has arrived at Los Angeles and started training for participation in the Olympic games. Other members of the Filipino ring team are John Gray and Jose Villaneuva,bantam champion of the Orient.

Brilliant Array of Golfers Competing at Akron; No One Favored.

By The Associated Press
AKRON, O., July 14—Maybe some day there will be a swankier field in the Ohio amateur golf championship than the one starting this morning, but most certainly there has not been such a one in all the 28 years the tournament has been in existence.

The championship flight is made up to 32 potential champions. True there are two or three favorites, but every player is conceded an almost even chance of coming through.

The situation will have taken on a clearer aspect by night fall as two rounds are on the schedule today and probably will bring together many of the stars.

Kepler meets W. A. Maguire of Akron, in the first round while Florio is taking on Bob Winteringer of Steubenville.

Transue who nosed out Florio for medal honors yesterday, 145 to 144, will meet Eddie Hamant, a young Dayton star. Weber will meet another youngster in Byron Hunt of Columbus. Seville will take on Don McAllister, football coach at Toledo Waite High school.

SPEED DEMON

Even Bullets Can't Keep Cub Shortstop Out of Uniform.

By The Associated Press
CHICAGO, July 14—You'll have to admit that Bill Jurgens, flashy Cub shortstop, is a speed demon.

Speed made him one of the greatest pivot men in baseball. Speed saved him from death when a pretty brunette started shooting in his hotel room.

And now, eight days after suffering bullet wounds in the right side and left hand, he's back in uniform and working out with the Cubs.

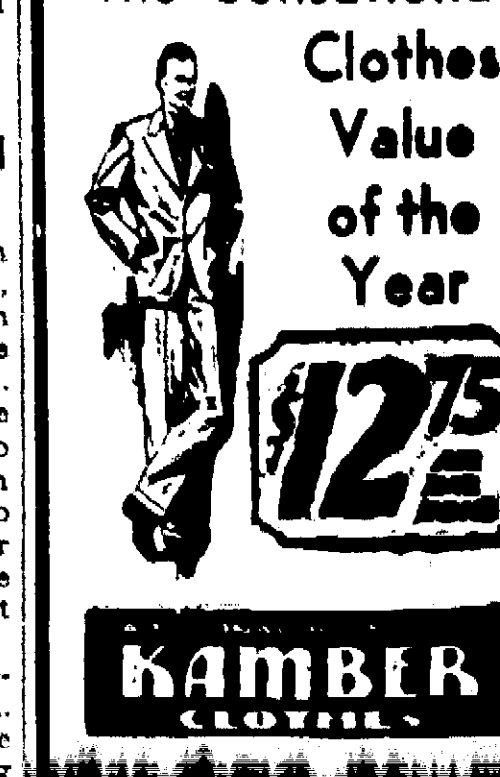

He'll have to forget baseball tomorrow, however, as he has been ordered to appear in court for the hearing of the girl who almost killed Miss Violet Valli on a charge of assault with intent to kill. Jurgens first refused to appear but the court threatened to bring him in if he persisted in his refusal.

STARS TO ASSAULT SWIMMING MARKS

By The Associated Press
CINCINNATI, O., July 14—Johnny Weismuller stood on the sidelines, an outsider, today, while the boys who would be king splashed the waters of Coney Island pool in efforts to eclipse at least one of the many marks held by the retired sovereign of amateur swimming.

Under fire were his records in the 100-meter free style, the Olympic mark of 58 3/5 seconds, and his world's record of 57 2/5. More immediately at stake were coveted places on the United States Olympic swimming team.

The Sensational Clothes Value of the Year

BRILLIANT FIELD TO SEEK TEAM BERTHS

American Team To Stand on Results of Competition Friday and Saturday.

By The Associated Press

PALO ALTO, Calif., July 14—America's warning to the invading army of athletes seems likely to be sounded with record-smashing emphasis in the final Olympic track and field tryouts, Friday and Saturday, before upwards of 30,000 spectators in Stanford university's beautifully laid out stadium.

The American team, barring some last-minute change of heart by Olympic officials, or extraordinary developments, will stand on the results of the tryouts. The desire of Ben Eastman, famous Stanford runner, to compete only in the 400-meter run, has disposed of the talk of picking him, without trial for the 800-meters.

Center of Storm

Eastman has been a storm-center ever since the forces began assembling for the final trial. Since his defeat in the inter-collegiate 440 by Bill Carr of Pennsylvania, Big Ben has been pointed for a return duel and "revenge" in the 400 meters. Eastman and Carr are "seeded" in separate heats of the 400 tomorrow but, barring the biggest kind of an upset, probably will battle it out in the final Saturday.

The world record of 47 seconds should be knocked bow-legged anyway.

The preliminaries tomorrow will reduce the all-star field, from around 300 athletes to not more than 125 for Saturday's finals. This

will be cut in half again by the deciding tests.

Although the spotlight focuses on a flock of Pacific coast stars, the dope-sheets indicated the east and middle west will contribute most of the place-winners.

Aside from the Carr-Eastman "natural," the chief thrills of the tryouts are expected in the sprints and 1500 meter run, nearest Olympic equivalent to the mile. Emmett Topping of New Orleans, and Ralph Metcalfe, Marquette Negro, ruled the favorites in the 100 and 200 meter dashes, respectively. Also Frank Wykoff of Southern California, contrary to original expectation, now plans to make a bid in both dashes. Eddie Tolan, the dusky speedster, also has caught the fancy of critics.

Wykoff Looks Good

Wykoff, the intercollegiate champion, was a prime choice to extend Topping in the 100. Hec Dyer of the Los Angeles A. C., and Bob Kneel, blond California bullet, have decided to concentrate on the 200.

The 1500 meter run, for which there will be two trial heats tomorrow to select seven finalists, promises to develop a great struggle between the east and mid-west.

Among others, Gene Venzke, "Pen" Halliwell, Joe Margin and Leo Lerman, eastern stars, will match strides with Glenn Cunningham of Kansas and Henry Bromsmith of Indiana.

Plans for an ice cream social on the lawn of the church next Wednesday night, a church benefit project, were completed last night. Refreshments were served.

MARION MAN TAKES TRIP WITH CIRCUS

A Marion man and a former Marion resident this week are learning first hand about circus life. Murray Powers, former managing editor of The Marion Star and now managing editor of The Portsmouth Times, has been traveling with the Hagenbeck-Wallace circus for the last five days. Charles Merkel, an employee of The Marion Star, joined the circus when it showed here Tuesday. He will return to Marion Friday.

Both men are dyed-in-the-wool circus fans and are "trouping" for a few days as a new vacation experience.

You can enjoy your vacation better! If you go away leaving your home and business adequately protected with sound stock fire insurance. Our advice is without obligation.
